OFFICE OF THE
COMMISSIONER

TELEPHONE 601-359-1031

To the Honorable Senate
and House of Representatives
State of Mississippi

In compliance with Section 81-1-113, Mississippi Code of 1972, Annotated, I submit for your consideration and information, the Report of the Department of Banking and Consumer Finance reflecting operations of the Department for the calendar year 1988.

On December 31, 1988, the assets of the 98 state banks totaled $10,173,995,000 compared to 99 state banks on December 31, 1987, with assets of $9,680,738,000 - a dollar increase of $493,257,000 or 5.10%.

The personnel and staff of the Department are dedicated to the policy that sound financial practices are in place to the state's financial institutions regulated by this Department, and to insure that financial services are available to meet public demand and foster economic growth.

The Department will continue its policy of being an advocate of banking and seeking every means available to improve any financial institutions found to be in need of assistance.

Sincerely,

Thomas L. Wright
Commissioner

Thomas M. Saterfiel, Ph.D., Deputy State Superintendent • Suite 506 • (601) 359-3514

January 13, 1989

To the Legislature of the State of Mississippi:

In accordance with the requirements of Section 37-3-11 of the Mississippi Code of 1972, Annotated, I am pleased to submit to you the annual report of the State Superintendent of Education for fiscal year 1987-88.

The 1987-88 school year again saw major gains in elementary and secondary education in this state. Of particular importance was the rise in student achievement that once again occurred in our testing program. Both the Basic Skills Assessment Program (BSAP)--administered to students in grades 3, 5 and 8--and the Stanford Achievement Test--administered in grades 4, 6 and 8--have three components: reading, mathematics and writing. That means 18 tests in all, and Mississippi students increased their achievement in all eighteen over the previous year! This is the third consecutive year in which test results have either increased or remained level.

We now have in place in Mississippi what I believe to be the finest early childhood education program in the United States. Every school district in the state is offering a full-day kindergarten program, and we have teacher assistants in most of our K-3 classrooms. In addition, unlike many states, we have put in place a "developmentally appropriate" curriculum in kindergarten.

One of the brightest signs of progress for education in Mississippi is the increasing involvement of the private sector. We continue to work hard at fostering these business-education partnerships, and we now have in place a countless number of "adopt-a-school" projects and other activities in which business people are helping us, both locally and state wide. This comes as the result of the increasing awareness that Mississippi will not progress economically unless and until its education system is improved.

The Education Reform Act is now largely in place, and we are moving forward on new fronts. I look forward to working with you in this new session of the Legislature as we strive together to make things better for the people of this great state.

Sincerely,

Richard A. Boyd, Ed.D.
State Superintendent of Education

Definition: A school is a division of the school system consisting of a group of pupils composed of one or more grade groups, organized as one unit with one or more teachers to give instruction of a defined type and housed in a school plant of one or more buildings. More than one school may be housed in one school plant, as is the case when the elementary and secondary programs are housed in the same school plant.

SCHOOL ACCREDITATION
1987-88

The Education Reform Act of 1982 created a performance-based accreditation system and made state accreditation a mandatory process for all public school districts. The performance-based system emphasizes outcome measures rather than quantitative factors and is designed to accredit school districts rather than individual schools. During school year 1987-88, the performance-based accreditation system was implemented, and the Commission on School Accreditation awarded an accredited status to each of the **152 public school districts** and the **four agricultural high schools** representing a total of **873 schools.** The state accreditation system remained voluntary for nonpublic and special schools in the state. The majority of the nonpublic schools are parochial, and the special schools are those established to serve special needs of students. During the 1987-88 school year, the Commission on School Accreditation received applications from and subsequently accredited **60 nonpublic schools** and **21 special schools.**
